Digital ECG Transmitter

- ⦿ Portable and light-weight
- ⦿ Soft animal-friendly clips
- ⦿ App based submission
- ⦿ Allows clinics to submit cases at any time
- ⦿ Can watch the ecg live

Video

Telemedicine Services

Radiographic and Echocardiograph consultations can also be performed as a single diagnostic or along with an ECG as a combined report.

Cardiac Event Recorder

This device allows recording of the EKG during episodes of weakness or collapse at home. EKG can be sent by phone for immediate diagnosis. This unit can be sent to your practice when needed.

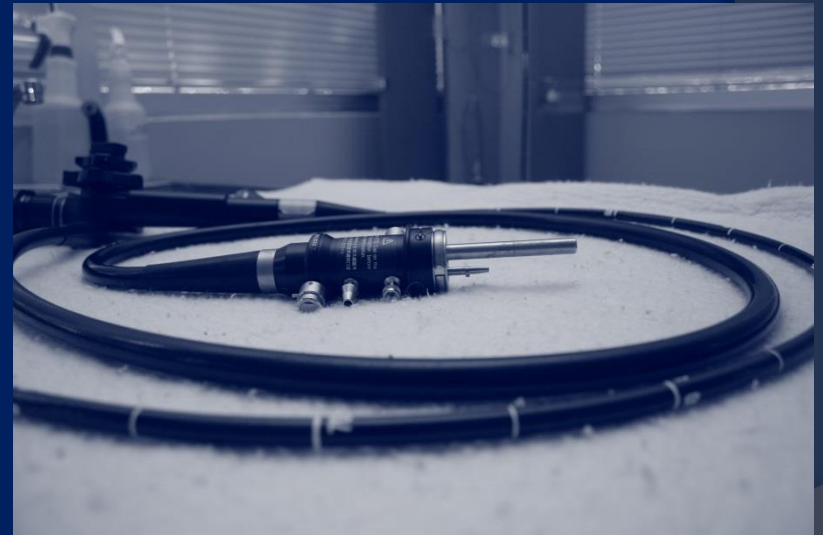

Holter Monitoring

This device is used to record 24 hours of continual EKG activity. Holter monitoring is indicated in the screening of boxers and Dobermans for cardiomyopathy and for determination of transient arrhythmias. Holter monitors are sent to your practice when needed.

Internal Medicine Services

Provides consultation and treatment pertaining to all aspects of internal medicine.
Both in-house and through telemedicine services.

Radioactive Iodine Therapy

PARAMETERS	I-131	SURGERY	TAPAZOLE	Y/D
CURES HYPERTHYROIDISM	✓			
Destroys all the thyroid tumor wherever it is	✓			
Cost effective	✓			
No harmful side effects	✓			
Requires anesthesia (Increased risk)		✓		
Possible post-operative complications		✓		
After multiple surgeries may require I-131		✓
