

EXCLUSIVE PRICE LIST FOR PSI MEMBERS

Companion Therapy System (CTS)

List price: \$29,950.00

Special Member Pricing: \$23,950.00

The CTS is the recognized 'flagship' of the Companion line of therapy lasers. The CTS is the first veterinary therapy laser to incorporate smartcoat+ technology, animation, and USB software updating capability. Unique in the industry is the CTS Patient Tracker program allowing practices to record and recall patient histories, treatments, and dosages.

Companion Therapy Compact (CTC)

CTC-12 List price \$24,950.00 ; CTC-15 List price: \$25,950.00

Special Member Pricing: CTC-12, \$19,950.00; CTC-15, \$20,950.00

The CTC is a highly mobile, battery-operated system is available with 12 or 15 watts of power, sufficient to treat even the largest animals efficiently. The CTC comes with a hard carrying case as well as a convenient soft carry pouch. USB updatable. Battery or AC operation.

Companion Therapy Laser (CTL-9)

CTL-9 List price \$14,950.00

The "CTL-9" is specifically designed for veterinarians who appreciate Companion's quality and clinical performance in an economical and easy-to-use system. The CTL-9, the newest and smallest member in Companion's family of lasers, is perfect for practices who have fewer patients or who desire an exceptionally rapid return-on-investment, yet still insist on reliable clinical successes for their patients. CTL-9 owners enjoy all the superior training, continuing education, and unparalleled support that is standard with all Companion products.

Leadership, Service, and Technology

Companion Lasers are unique in several ways: Each was designed specifically for veterinary applications and is built and serviced in the USA. The CTS and CTC employ sophisticated dosing software that factors in a patient's species, size, condition, skin and coat color, and hair length to calculate treatment parameters for reproducible and consistent results. Each laser uses the robust Empower Delivery System (EDS) and a set of application-specific treatment heads. For members, each laser carries a four-year, bumper-to-bumper warranty with overnight loaner service and 3 to 5 day turn-around on any needed repairs. Every system comes with all appropriate accessories, client education materials, comprehensive in-service training, and online laser CE.

Laser Liaison Program
List price with laser: \$3,495.00
Special Member Pricing: \$3,000.00

This program provides practices with the tools and support necessary to integrate laser therapy. Participants in the Program learn how to educate clients about the benefits of laser therapy, add value to their practices, differentiate themselves from competitors, and maximize their investment in laser technology by using the Program's consultation services.

Laser Liaison

A comprehensive practice-building
and laser education program

NOTE: prices shown do not include shipping or any applicable duties or taxes.
Refurbished lasers are occasionally available.
